PROFESSIONAL SUMMARY

Detail-oriented Web Developer with experience in website development, content management, and quality assurance. Skilled in WordPress, Elementor, WooCommerce, HTML, CSS, and JavaScript, with a focus on building responsive, user-friendly, and visually appealing websites. Experienced in managing website content, implementing layouts, troubleshooting design issues, and maintaining website accuracy and consistency. Passionate about creating functional websites and continuously improving technical skills to deliver high-quality web solutions.

WORK EXPERIENCE

Luxury Presence - Junior Web Builder - *Aug 2025 - Aug 2026*

- Updated and maintained real estate website content for agents and brokerages using a proprietary content management platform.
- Reviewed website content and page layouts to identify errors and ensure information was displayed accurately.
- Checked website content across browsers and devices to identify layout issues and maintain quality standards.
- Edited page content and layouts using HTML, CSS, JavaScript, and JSON while following client requirements and brand guidelines.
- Completed content updates and quality checks while managing tasks within established deadlines.

Clark International Airport Corporation — *Web Developer & IT Support Intern*

- Assisted in creating and maintaining company websites while implementing SEO-focused content and frontend improvements.
- Provided technical support for office systems, software troubleshooting, and internal technology concerns.

SELECTED PROJECTS

Luma Skin — Skincare E-Commerce Website
WordPress | Elementor | WooCommerce | CSS

- Developed a responsive e-commerce website using WordPress, Elementor, and WooCommerce, featuring a customized storefront, product catalog, and shopping cart functionality.
- Configured product listings, categories, pricing, and inventory management while customizing page layouts and styling to ensure a consistent, user-friendly shopping experience.

Auto-Detailing Website — Personal Full-Stack Marketing Site with Serverless Lead Pipeline
HTML | CSS | JS | Supabase | Resend | Playwright | Doppler

- Built a multi-page marketing site from scratch in vanilla HTML/CSS/JS with a custom design system and persistent dark/light theming.
- Engineered an end-to-end serverless lead pipeline (Vercel function → Supabase Postgres →automated Resend emails) with fault-tolerant, no-drop submission handling.

TECHNICAL SKILLS

- **Web Development:** WordPress, Elementor, WPBakery, WooCommerce, HTML5, CSS3, JavaScript, Responsive Web Design, Website Customization, UI/UX Implementation.
- **Tools & Website Management:** Figma, Canva, GoHighLevel, Webflow, Website Content Management, Product Management, Website Troubleshooting, Quality Assurance, Cross-Browser Testing.
