

GABRIEL PAOLO BALTAZAR

AI AUTOMATION SPECIALIST / TECHNICAL VIRTUAL ASSISTANT

[LinkedIn](#) | [Portfolio](#) | gpaolobaltazar@gmail.com | +63 976 573 7246

PROFESSIONAL SUMMARY

Automation specialist and technical VA with a BS in Computer Science. Builds CRM, lead, and AI workflows in n8n, GoHighLevel, Make, Zapier, and HubSpot, backed by hands-on experience in client automation projects, funnel builds, and web development.

CORE STACK

- **Automation:** n8n (self-hosted), GoHighLevel, Make, Zapier, HubSpot, Airtable, Slack, Webhooks, REST APIs
- **Code and Infrastructure:** Python, JavaScript, Node.js, HTML, CSS, JSON, SQL, Supabase
- **Web:** WordPress, Elementor, Front-end Customization, Responsive Design, Website QA

PROFESSIONAL EXPERIENCE

Freelance AI Automation Specialist - Present

- *Contract Client: U.S. government-contracting consultancy*
 - Deployed an outreach pipeline end to end on a Hostinger VPS with Docker, Flask, PostgreSQL, and self-hosted n8n, sourcing live opportunities from the SAM.gov API.
 - Integrated Grok AI for web research, ZeroBounce for email verification, and Resend for sending, then moved the system from demo mode to live.
- *Client: AIVARA, GoHighLevel funnel builds*
 - Built automated webinar funnels with registration, reminders, follow-up workflows, and offer delivery.
 - Configured CRM tracking and pipeline automation for lead monitoring. Nurture workflows raised attendance and cut manual follow-up.

Luxury Presence - Junior Web Builder - Aug 2025 - Aug 2026

- Build and customize luxury real estate websites for agents and brokerages on a proprietary CMS.
- Write and modify page sections in HTML, CSS, JavaScript, and JSON to fix layout and responsiveness.
- Run website QA, content updates, and front-end fixes against brand standards on fast production timelines.

SELECTED AUTOMATION PROJECTS

Dental Clinic Snapshot | GoHighLevel

- Built a full dental practice system in 9 days, with 8 workflows, a 5-stage pipeline, and a 5-page funnel. Packaged it as a snapshot.

AI Knowledge-Base Support Agent | n8n, Gemini API, Slack

- Built a support agent that answers from a 30-entry knowledge base and escalates to Slack. It passed 10 of 10 test scenarios with zero invented facts.

AI Content Repurposing Engine | Make, Gemini API, Google Workspace

- Turns 1 Google Doc into 3 review-ready drafts in a single Gemini call, saving 30 to 45 minutes per piece at \$0 running cost.

Lead Intake, Scoring and Routing Engine | Zapier, JavaScript, Airtable

- Scores and routes solar leads in seconds with a 95-point JavaScript model, replacing manual triage that took 1 hour to a full day.

EDUCATION

Bachelor of Science in Computer Science | Holy Angel University

- Consistent Honor Student
- Relevant coursework: Data Structures, Web Development, Cybersecurity, Machine Learning
